

The Darwin

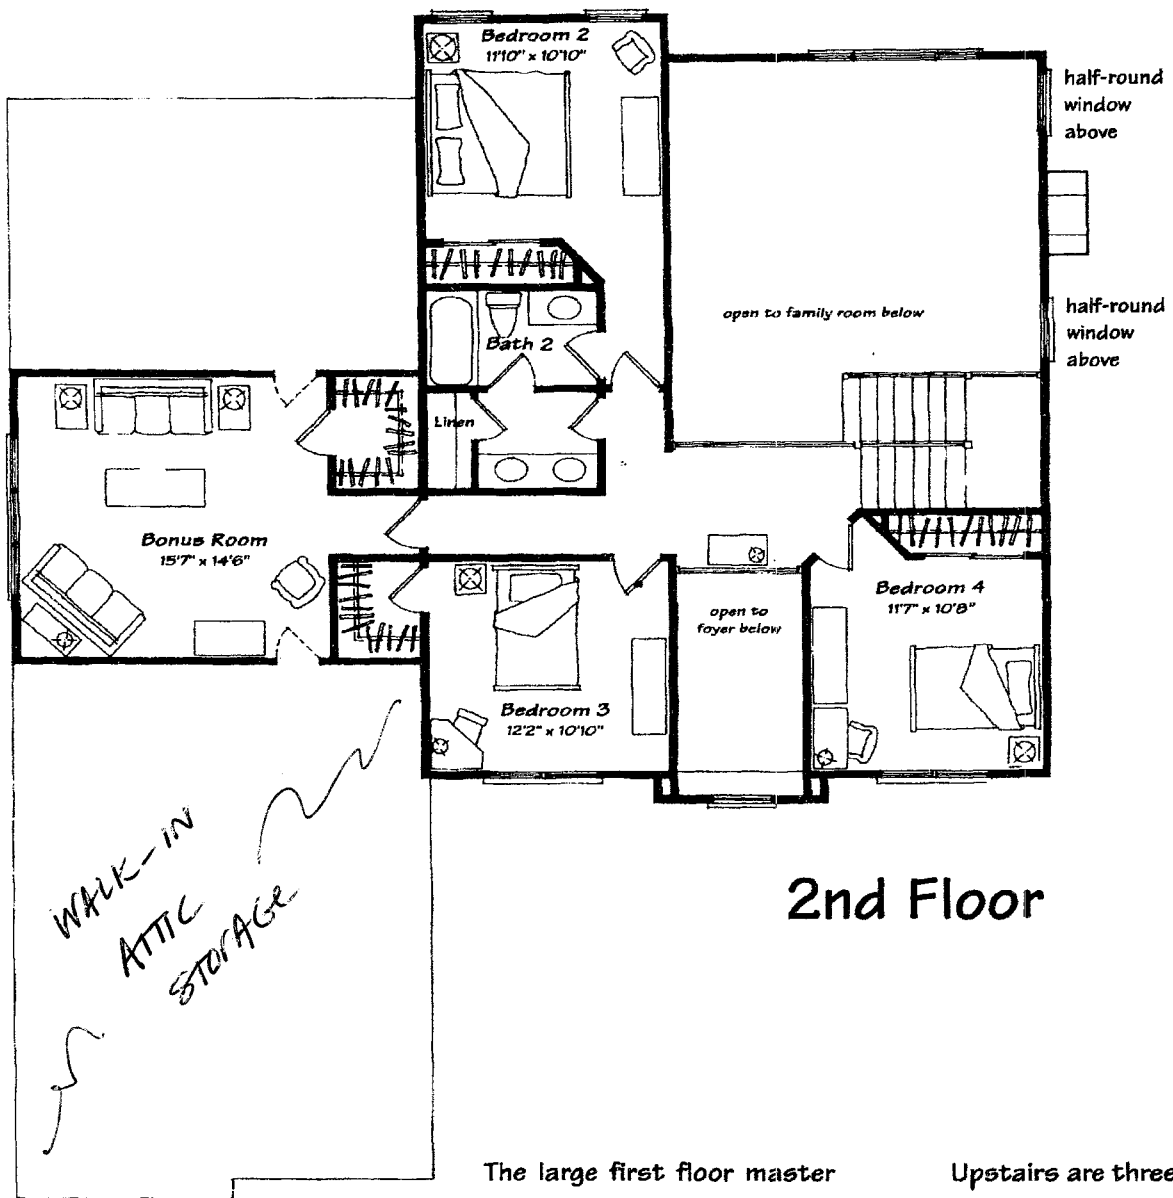

The Darwin is sensational! The living room and the dining room flow into the foyer creating an open, inviting entertaining area.

The foyer leads to the breathtaking family room with two walls of two story windows where half-round accents flank both sides of

the fireplace and the open stairway. Everyday living will be delightful here and in the adjoining spacious kitchen with sunlit breakfast bay.

1st Floor

2nd Floor

The large first floor master bedroom is irresistible with its dream-like tray ceiling and abundant windows. The master bath is impressive with its vaulted ceiling, showcase window, garden tub and oversized shower.

Upstairs are three bedrooms and a dual access bath with a sink for each bedroom! The bonus room with its large walk-in closet is a great playroom, media room or office . . . and adds yet a third living area to the already livable "Darwin".
